

EXHIBIT 11-E

SAMPLE PROJECT SIGN FORMATS

The standard elements included in project signs for public facilities or economic development projects, where there may be one or two major construction sites or buildings involved, are as shown in the example below:

TOWN OF SUNRISE		
EAST SIDE WATER PROJECT		
John Driscoll, Mayor		
CONTRACTOR:	XYZ Construction, Inc., Billings	
ENGINEER:	Clearwater and Assoc., Great Falls	
FUNDING:	Montana Department of Commerce Community Development Block Grant	\$350,000
	U.S.D.A./Rural Development	\$250,000
	Town of Sunrise	\$100,000
Working Together to Build a Better Montana"		

In a housing and neighborhood revitalization project, the project area will usually cover an entire neighborhood. In these cases, a single project sign may not be appropriate. The City of Havre's East End housing rehabilitation project places signs on the lawns of homes being rehabilitated through the CDBG project. An example of the signs, with black block letters on a white background, read:

A REHAB PROJECT OF THE HAVRE HOUSING PROGRAM
265-9226

Included at the bottom of the sign is the HUD fair housing logo and the telephone number for the rehabilitation program office. The sign helps to market the program and create a sense that things are changing for the better in the neighborhood.
